I don't want to short circuit Jay's internal process too much, particularly since this is still an early draft, but the attached draft should help give a better sense of where this is going, and the highlighted portions should help identify what we still need (particularly from NPS) and why it matters.

Let me know if this makes sense.

Sincerely,

Gary Lawkowski

Please find attached a working draft of the proposed rule regarding demonstrations and special events on the National Mall.

If possible, could you please let me know what you think by Friday (sooner is always appreciated, but I know it's a long document)? From there, my plan is to go back with one set of comments, work with Jay to address them, and move it forward.

Thank you very much for your time and help, I greatly appreciate it!

Sincerely,
